Malena McFarland

Rolling in as your favorite b-boy with an eye for fashion, the ladies choice—Mike D!

Malena, has no qualms busting sick rhymes on stage. Like the Beastie Boys, Sheastie Boys never take themselves too seriously and she uses this as her mantra.

Malena spent her youth doing performing arts and while she never thought she'd be rapping in a tribute band, she found her niche with Sheastie Boys and has been happily performing shows ever since.
